

vite-plugin-ssr

Like Next.js/Nuxt but as do-one-thing-do-it-well Vite plugin.

- Started vite-plugin-ssr in 2021
 - Vite's early days (before its meteoric rise)
 - Idea: Powerful low-level hooks, for full control over integration
- Renamed to Vike
 - For "street cred"
 - Extensions: vike-react / vike-vue / vike-solid (and more)
